EDUCATION

KIT – Kalaignarkarunanidhi Institute of Technology — Coimbatore, India
BE Computer Science Engineering (AI & ML) - CGPA: 8.40/10.0 — Pre-Final Year

EXPERIENCE

Thiranex — Chennai, India
Full Stack Developer Intern — May 2026
• Built and deployed 4 production-grade web applications (Portfolio, Task Manager, E-Commerce, Blog) using React.js on the frontend via Vercel and Node.js/Express backends on Render, managing the entire deployment pipeline independently.

DecodeLabs — Lucknow, India
Cloud Computing Intern — May 2026
• Provisioned and managed AWS services (S3, DynamoDB, Lambda, RDS), designed a serverless event-driven architecture and deployed a cost-efficient, scalable cloud infrastructure from scratch.

PROJECTS

ShopNow – E-Commerce Application | React, Node.js, Express, MongoDB, JWT
• Built a full-stack e-commerce platform with JWT role-based auth (Admin/User), persistent cart with localStorage sync, product catalog with search, filter by category, sort, and pagination and implemented end-to-end order lifecycle (Processing → Confirmed → Shipped → Delivered), server-side 18% GST calculation, and an admin dashboard for product, order, and user management.

Ritnezz – Fitness App | Next.js, Supabase, Tailwind CSS, shadcn/ui
• Built a Next.js PWA with Supabase auth and database, delivering a structured weekly workout system with countdown timers, rep tracking, and embedded exercise videos in a single-exercise-at-a-time flow and developed a Smart Food Tracker with meal-slot categorization, predefined calorie mappings, and automatic daily calorie aggregation, paired with a day-wise analytics module tracking workout completion and intake trends.

FairShare – Group Accountability System | Python, Flask, SQLite, SQLAlchemy
• Built a full-stack Flask + SQLite web app that computes per-member fairness scores using a weighted algorithm (task completion 40%, on-time rate 30%, activity 20%, peer ratings 10%) for objective group evaluation and designed a normalized relational schema across 7 tables with full CRUD for projects, tasks, and peer reviews, secured via Flask-Login session management and Werkzeug password hashing.

Inkwell – Blog Platform with Comments | React, Node.js, Express, SQLite, JWT
• Built a full-stack blogging platform with JWT stateless authentication, owner-scoped post and comment management, and Axios interceptors for automatic token injection on all protected API routes and implemented React Context API for global auth state, React Router v6 protected routes, and bcryptjs password hashing, covering the complete authentication lifecycle from registration to token expiry.

TECHNICAL SKILLS

Languages: C++, Python,Java, JavaScript, HTML, TypeScript, SQL, Bash
Frontend: React.js, Next.js, Tailwind CSS, shadcn/ui
Backend: Node.js, Express.js, Flask, REST APIs
Databases: MongoDB, PostgreSQL, SQLite, Supabase
Cloud & DevOps: AWS (S3, Lambda, RDS, DynamoDB), Git, GitHub, Vercel, Render
Concepts: OOP, DSA, System Design, Agile/Scrum
Tools: Postman, Docker, npm, Linux, Figma, VS Code, Jira,Tensorflow, Pytorch
Technologies: Machine Learning, Deep Leraning, Natural Language Processing

CERTIFICATIONS & COURSES

- Artificial Intelligence Foundation — Infosys Springboard 2024
- Computer Vision — Infosys Springboard 2025
- Introduction to Robotic Automation — Infosys Springboard 2025
- Artificial Intelligence Primer Certification — Infosys Springboard 2026
- Oracle Cloud Infrastructure Foundations Associate — SkillSoft 2026
- Algorithmic Graph Theory and Data Structures — NPTEL (Elite) 2026
- Applied AI for Customer Review Analysis — Cisco Networking Academy 2026
- Introduction to Modern AI — Cisco Networking Academy 2026

COMPETITIVE PROGRAMMING

LeetCode : Max rating **1637** | Solved problems: **100+** | Top **19.74%** globally | Highest Rank : **5,013**
CodeChef : Max rating **1330** | Position : **1 Star** | Highest Rank **1,267** | Global Rank : **58,777** | Solved **450+** problems

ACHIEVEMENTS

• Achieved **Agentblazer Champion** recognition (2025) on Salesforce Trailhead by completing **48+** skill badges in Salesforce platform fundamentals, Agentforce, and AI-driven automation | rathivarshini
• Competed in multiple hackathons including TN IMPACT, TNWISE 2025 & 2026, and a 24-hour intra-college hackathon, consistently delivering full-stack solutions under time pressure.
• Earned Elite Certification from NPTEL in Algorithmic Graph Theory and Data Structures, awarded to the top percentile of national-level performers across all participating institutions.
• Elected as Student Representative for 60+ first-year students, serving as the sole liaison between the batch and faculty to resolve academic concerns, timetable conflicts, and departmental requests.
